

Here, There, Everywhere

Lennon/McCartney, additional words Carson 1992

To lead a better life, I need my Lord to be here --

Here - making each day of the year
saving my life as he lifts up his hands -
nobody can undo what he did there.

There - talking with him in prayer
suddenly thinking how good it will be
when he is with me in heaven's eternal care.

He's with me everywhere, and if he's beside me
I know I need never care.

--- I love him and I need him everywhere.

Knowing that love is to share
always believing that love never dies
his love in my eyes brings hope
'cause he's always there

He'll be there and everywhere
Here, there and everywhere
